(Airspace Docket No. 63-EA-14)

PART 71-DESIGNATION OF FEDERAL AIRWAYS,  
CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Alteration of Control Zones  
and Designation of Transition Areas

On August 28, 1963, a Notice of Proposed Rule Making was published in the Federal Register (28 F. R. 9438) stating that the Federal Aviation Agency proposed to alter the Greater Pittsburgh, Pa., Allegheny County, Pa., and Wheeling, W. Va., control zones, and designate transition areas at Pittsburgh, Wheeling, Washington, Pa., Butler, Pa., and St. Clairsville, Ohio.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

Subsequent to the publication of the Notice, the FAA has been advised by the Washington County, Pa., Airport authorities that funds are not available at this time for the commissioning and maintaining of the proposed Washington County radio beacon. Therefore, the FAA is deleting the designation of the Washington County transition area from this docket and it will be proposed for designation at a later date.
